New Meal Pattern

The USDA has given guidance on most of the "New Meal Pattern" allowing for early implementation. The SDE is encouraging use of the new meal pattern. Meals following the old meal pattern will not be disallowed until October 1, 2017.

** We will be discussing the changes at the workshops.

Civil Rights Training

You may go to our web site at cacfpstdp.org/traininghtml and complete your civil rights training for this year. Bring your completed certificate to the CACFP training and you will be able to leave early.

FYI

For providers that use electronic paper work will receive a new master spreadsheets for FY17 in the next few weeks, this will include the updated menu templates with the new meal pattern, these masters will not include your menus that are on file, menus will need to be added to be in compliance with the new patterns.

Region 1 – Begin using the new master for December's claim.

Region 2- Begin using the new master for November's claim
